RE: Remedial Investigation Report for Operable Unit 4  
Anniston PCB Site (Docket No. 1:02-cv-749-KOB)  
Anniston, Alabama

Dear Ms. Langston Scully:

On behalf of Pharmacia LLC and Solutia Inc. (P/S), as signatory parties to the August 4, 2003, Partial Consent Decree (PCD) for the Anniston PCB Site (the Site), enclosed please find two printed copies of the Remedial Investigation Report for Operable Unit 4 (OU-4 RI). An electronic copy of the OU-4 RI is provided on a flash drive that is included with each printed copy of the report. Submittal of this document fulfills the commitment made by P/S to provide an RI report that compiles the available data from OU-4.

Included with this OU-4 RI are responses to comments received from the United States Environmental Protection Agency (USEPA), dated June 6, 2019, on the draft OU-4 RI, dated December 20, 2018. Where appropriate, responses to comments are also incorporated into the applicable sections of the OU-4 RI. Transmittal of this revised version of the OU-4 RI meets the 90-day revision schedule approved by USEPA in the June 6, 2019, comments letter.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "E. Macolly", is written over a light blue horizontal line.

E. Gayle Macolly  
Manager, Remedial Projects  
Solutia Inc.
